This is America. You have no right to act so authoritarian. There is no need for commissioners to have any say on health matters. This is an obvious power grab and I in no way support this motion! There is not even proof that masks work. There is also little information being studied on the long term effects of mask wearing in our children for 8 hours a day. If you support the science, prove your point before you mandate it. This is America. Let "we the people" decide. We can vote on this issue ourselves.
