I am NOT for a Mandate NOR a LAW requiring people to wear a mask continually. It should be a choice as to those who wish to wear one. I believe this is government overreach as well as mandating vaccines. The flu has killed more people than Covid and yet it is not a mandate for people to have it. I have all my shots and got them so I wouldn't have to wear a mask all the time. That's what was told to everyone in order to get the vaccines. We get the vaccines and we wouldn't have to wear a mask in order to go out. We could get back to normal faster. When does it end!! The Commissioners have more important items to take care of, yet are still trying to make a law they have no business making. Why don't you focus on our schools and the fights, the shootings, the crime and let people make their own choices for their bodies as to what goes into and on them. If the mandates and threatening of making it a law and people losing their jobs would quit being shoved down our throats, you might have more people willing to wear masks. People will stop wearing masks because you want to make a law and fine people just to show you that you cannot keep up with everyone that would not wear them. THAT, fining people for NOT wearing a mask or getting vaccines IS government OVERREACH!! What's next, line us up on the street and shoot us for not obeying, for not complying!!?? I fully believe that's where our government would love to take us to. It needs to end. We are not China and we are not a communistic society. I understand in the beginning we

needed to be cautious, now we need to get back to normal and let folks make their own choices. I'm wondering what else our government would like to slide under the rug, make into a law and have fines for. Especially without the voice of the people they govern having a say on the subject. You want to know what the majority of people think, want, go out and poll them, vote on it and find out. Thank you for reading this.
