I am AGAINST any government forcing anyone to wear a mask. When is all of this nonsense going to stop? I've been shopping, eating out and doing all of my business outside of the county or in establishments that do NOT require a mask for almost a year. St. Mary's, Calvert, Anne Arundel and even counties in Virginia such as King George have removed their mask mandates. Why is Charles County continuing to attempt such draconian measures to control their population? Covid isn't even a big threat anymore even though the media and government officials keep saying it is. I work for a school and the incidents of positive cases have fallen dramatically to almost ZERO. Even with students who continually have their masks below their noses and off for lunches. We even removed the capacity requirements for athletic & other events. It is impossible to police hundreds of students and force them all to wear masks every second of every day. Are you going to fine students who don't wear a mask? Of those who forget to bring them in the morning? You might as well permanently close all restaurants to dine in options. How much sense does it make to require a mask to walk into a restaurant but take it off when sitting at the table. It doesn't take a rocket scientist to see the lunacy of that issue. Masks haven't slowed the spread much after the lockdowns and mandatory masks of early 2020. If the wearing of masks becomes law, I will vote to remove any commissioner that voted for it and if that change doesn't happen soon enough, I will leave the county. I own

my home and pay a hefty tax bill each year. Please use common sense and stay out of this issue. Allow people to make their own decisions on their health and how they decide to live.
