As a resident and business owner in Charles County, I am writing today to express my opposition to Resolution 2021-21 allowing the Commissioners to declare yet another mask mandate on our citizens and businesses. As a small business owner, I am tired of playing the mask police, and offending customers entering my business. I have been threatened, I have been cussed at, and I have lost customers countless times over the past 20 months. Customers have a choice where to spend money and they are taking their business to neighboring counties and states that enable them to make their own choice about wearing masks. If someone personally feels the need to wear a mask, by all means wear one. If you want to wear 2 or 3, that is fine with me also. If you want to have vaccines, and boosters, that is your choice in addition. Personally, I wear a mask when required or when asked, and I am fully vaccinated and boosted. I want to protect myself and my customers, but I don't want the government to tell me that I have no choice. I find it hard to believe that my commissioners want to assess me or my business \$50 fines on each individual not wearing a mask. Is it going to stop at just a mask, or will it be vaccines next? The "data" and the "science" has not proven masks to be effective. If they worked that well, we would not be having this conversation 20 months into the pandemic. Please, do not ask me to continue turning customers around at the door. That is no way to treat anyone. I'm tired of it, my employees are tired of it, and most

importantly my customers are tired of it. If you took a community poll you would find the same. That next poll could be your next election campaign. Thank you.
