I think this ordinance, permanent mandate or whatever ya call it, is a terrible idea. Not only terrible for the people being forced to wear one, but terrible for the businesses of Charles County. I think people are much more likely to go shopping elsewhere than to shop in Charles County. I know my family will be going somewhere else to shop, eat, etc... That's not only money lost by the business, but also money lost by the county in sales tax. With the lost revenue businesses will be forced to cut employees. That's more people losing their jobs and if they're a county resident, income tax lost. The snowball effect just keeps going, people moving out of the county, etc... Sure more people will move here. But will they have the same income, or will it be less? If less, then that will mean less income tax, less money being spent within the county, less people working to provide the service and in turn less sales tax and so on. And it continues. When wearing a mask for such long periods, you reduce the oxygen to your body and brain. If this does go through, hopefully the me county commissioners can put a stop to this nonsense, when they take office after the next election.
