Has the commissioners ever really looked at the numbers in Charles county? Its all about the science and stop the pandemic, right? Do you realize that Charles county has less than 25 cases a day on average and about 2 deaths a month since June? In the 2 years we s a county have had 15k cases and 270 deaths. We have over 170k people living in the county. Is this really pandemic numbers? When do you want to stop forcing people to wear masks? If you want to wear a mask fine, let others make their own choice.
