I want to make sure the Commissioners understand that the citizens of Charles County are not in favor of any changes that gives them the "green light" to impose any mandatory or regulatory fines on individuals or businesses under any guise of a "health emergency" or impose mandatory actions on the residents of this county. The citizens of this county and the DMV as a whole understand when we need to take precautions on our own and do not need any government to make those decisions for ourselves and on top of that levy fines on us. As a tax professional in this State of Maryland, I can honestly attest to the fact that the higher taxes is what has driven many from this State. Any added burdens will only make it worse for businesses to survive and make it. Stop with the mis-guided thoughts of trying to implement this plan. This is not what you were elected for.
