I have attached my full thoughts and feelings in the attached PDF document. I am against this topic. I do not want to see this community fall under the type of leadership where any commissioner at any point and time, now and in the future, can implement a mask mandate not based on relevant data. We went from "Let's keep the hospitalizations and deaths low" to "Let's keep overall numbers low". The bar is constantly moving. How are we supposed to live our lives like this in this community? Charles County is one of the most beautiful in this state. Let's keep it free for people to make their own health decisions too. Thank you.
