I am writing on this very important issues of the discussion of the Mask Mandate. In Charles County there should be NO mask mandate for many reasons. The first, and most important, is there is actual research data that proves that masks do not protect us from COVID-19. This is not based in positive ity tastes, but rather the SIZE of the COVID molecules. The fibers of any mask still allow these molecules through. The second reason is due to the fact the criteria of HERD immunity has been surpassed. Fauci's criteria of "80 percent" for herd immunity is not based in science. He admitted that this is based in on people's NOT science. The most important reason we should NOT give a mask mandate is over site if the government. We live in a democracy. As such, we should not be forced by the government wear masks. The choice to protect yourself should be a choice. This mandate is a slippery slope to a socialistic government. From experience living at the end if one, in Spain in the 90s, the rights if people were still not as they are and should still be in the United States. It makes me sad that our rights as citizens are being stripped away by biased fear. I sincerely hope that the committee DO NOT reinstitute the Mask Mandate.
