I am 100% against the Unconstitutional and Un-American practice of mandating masks. I have a Medical Exemption due to being attacked in a violent crime and have trouble breathing since 2005. Because of the Governor's Unconstitutional Orders and subsequently allowing businesses to choose to violate Individual and Human Rights, I have not been able to shop in supermarkets for healthy groceries or work out in the gyms to improve my own fitness. Not to mention, individuals are willing to intimidate and threaten with violence those who are choosing to express their First Amendment and God Given Right to breathe oxygen. All of this has been psychological torture and Crimes Against Humanity as I have severe Post Traumatic Stress Disorder from being attacked and other abuses I've endured throughout my life. A mask is a medical device and forced masking is Forced Medical Treatment. Forced Medical Treatment violates The Nuremberg Code, which was established after World War II in response to gross Human Rights Violations. As someone who worked on a US Senate Campaign for The Libertarians, freedom and liberty as Americans is of paramount importance to me. I vehemently defend these principles and have fought against and peacefully protested against mask mandates the entire time. All institutions and governments that violated rights worldwide will be forced to step down for Crimes Against Humanity. These Unconstitutional Mask Mandates have directly impacted my ability to eat healthy food and work out in the gym. As a former college and semi-professional athlete this has been extremely detrimental to my physical and mental well-being, on top of the psychological effects of no longer living in a Free Society. Forced masking is not allowed in The United States of

America due to the fact that it directly violates our Constitution, particularly the 1st Amendment. The US Constitution is always valid, even during a faked public health "crisis". This is Treason.
