I am against the commissioners having the power to demand a mask mandate at any time, especially when they are not basing their decision on compelling metrics or publicly available research about masks or mandates. I have personally observed on numerous occasions the staff at Rucci's working behind the bar and in the kitchen without masks and I observed commissioner Bowling at HVFD's Banquet that was held in St. Mary's without his mask after having just voted in favor of the first mask mandate which passed. If this is truly a situation where they believed wearing the masks helped, wouldn't they wear them at all times whether in Charles County or not? I am especially opposed to fines for a measure which has very little evidence of being effective and just seems to be a power play by the Commissioners.
