The government should not be mandating masks. This affects our business in Charles County because several other counties around Charles county do not require masks and our customers and patrons will go to those other counties for what they need. If someone chooses to wear a mask I support their choice, but that is what it should be. A CHOICE! If the county continues to push these mandates on us we will be moving our business to one of the neighboring counties that do not push unnecessary mandates on its businesses which result is lost revenue. The lost revenue will continue to compound as customer steer clear of Charles County businesses that we have worked to build and cultivate relationships with our competitors just outside of the county. The vaccines have proven to be effective on all strains of COVID so far. If an individual is concerned that they may contract COVID then they should CHOOSE to get vaccinated or wear a mask. A personal choice.
