My name is Rose Page and I have been a resident of Charles County my whole life, which is 47 years. I strongly oppose mask mandates!! There is no scientific evidence that proves that wearing a mask will completely eliminate the transmission of Covid 19. Our children are the ones most affected by having to wear masks all day long at school even though their desks are atleast 3 feet apart AND the Covid 19 virus is not deadly to children. We have always had childhood sickness that have been super contagious, for example the flu or strep throat and we have never worn masks. More children have died from the flu than from Covid. Facial expressions/cues are very important for all children, especially the young children, to be able to see when engaging with their teachers. I will take my business to Virginia or St. Marys county if they bring back the mask mandate. I have never wanted to move out of Charles County as much as I do now. We should have the choice whether or not to wear a mask or even get the shot. If everyone that wanted the shot received the shot then they should not be concerned with what other people do because they are protected in their minds.
