The masks need to go, the metrics do not support the mandates that you're imposing on the people. St Mary's and Virginia have been mask optional and have seen no significant numbers to show concern to support having a mask mandate. This issue is for the individual person and their families, you DO NOT know what is best for anyone other than yourselves. You cannot allow your fear to take over other peoples lives! While most everyone else in the state has gone back to work in the office you all have been hiding in your homes, hiding from the adverse effects that the masks have on people with different medical conditions; hiding from the truth that you have been and are acting as though you are an untouchable tyrannical being. This mandate is not right and it is below reproach. I really hope that you make the right decision and leave the choice up to the individual.
