Masks are known to cut down on the rate of infection. Charles County has one of the highest rates of infection in the state. Why would our county officials choose now to not enforce a mask mandate? It is a reckless endangerment of employees in our service industries and businesses, of our elderly and immune compromised individuals. Do not listen to a relatively small group of right wing business owners who don't care about the rights of others to stay healthy. Instead of opening Charles County, which was not closed in the first place, (we only had to wear masks to protect others) these vocal people will cause the county to have to close schools and businesses as more employees and students and teachers get sick. Businesses have a harder time enforcing the rule that masks be required if they don't have the backing of our county government., so please help them by enforcing a mask mandate.
