Face masks in public indoor settings should be required. The county should give out quality masks - n 95 or kn94 or n94. Fabric masks aren't good enough nor is a loose surgical mask. People get angry thinking it's not working but they aren't all wearing effective masks. There is a small but vocal group that wants to believe covid isn't real or isn't dangerous. Please do not fall for the lies these loud but small groups are spreading. We know germ theory- we don't want to live in pre 1860's conditions as if we don't know how viruses and bacteria spread. Thank you for doing the factually based steps for public health purposes.
