Charles County continues to have lower positivity rates and a high vaccination rate. The people who aren't vaccinated or are fearful of covid can continue to wear masks and limit activities as they see fit. As my parents do who are high risk. Charles County citizens who are vaccinated and do not feel the need to wear masks should not be forced too. I tested positive for covid in August 2020. I have been more sick from the flu and nobody else in my family caught it. Both my son and I have allergies and constantly wearing the mask is a burden. As I did during your last mask mandate, I will do my shopping, dining out, and entertainment (movies) outside of Charles County if you impose another mask mandate. I will give St. Mary's County or King George County establishments my business, if I can go there without being forced to wear a mask. Please consider the science, numbers, and bigger picture when making this decision. The people who want to can always wear a mask.
