It is scientifically proven that masks do not work against the spread of this virus. The large majority of the residents of Charles County are still wearing them without a mandate and we are still seeing the spread continue. Our immune systems were designed to fight illness and by being masked all the time, you are keeping our immune system from the ability to fight. This is a freedom of choice matter and as Americans we have that freedom. Please do not cause greater division in this county over this matter. Your actions are impacting small businesses and the mental welfare of your constituents. You have an opportunity to do the right thing, support the American way of freedom of choice. Your actions will be remembered during the next election and do the right thing.
