This proposed resolution is an affront to every citizen of this county who considers themselves intelligent enough to decide what precautions they need to take in order to protect themselves from any illness. The extraordinary power granted through Home Rule Code was never intended to suppress the citizens freedom to make their own health care choices, the ability of businesses to compete and flourish within the county or as a legal remedy to further suppress the will of the citizen body. The citizens voted and gave this trusted authority not to be misused but with great faith and trust that it would be used wisely. As a lifelong resident of Charles County, I feel that trust has been broken by the suspicious timing of this resolution. We are well down the road to recovery and your focus should now be on mitigating the economic, emotional and physical damage inflicted on the citizens of Charles County since March 2020. Citizens rely on you to lead the way forward with courage, optimism and integrity. Most of all, the citizens of Charles County expect you to protect and defend their God given freedoms enshrined in the United States Constitution. Thank you for your consideration of my comments.
