I am STILL opposed to a mask mandate in Charles County" I will not and never accept or comply with a mask mandate in Charles, whether it is passed legislatively or not. If mask work please provide peer review study to the citizens of Charles county that mask will prevent the transmission of any virus or variant. According to the instructions of N95 surgical mask that health workers wear, it states WARNING: Will not provide any protection against COVID-19 (coronavirus) or other viruses or contaminants. Therefore if a commercial mask does not stop any virus neither will a home made mask. This is not about safety its about government control of Charles county citizens. In addition: I request all white papers describing the isolation of the COVID-19 and variants aka SARS-CoV-2 virus in human beings, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material. Note: The word "isolate" indicates: a thing is separated from all other material surrounding it. I am not requesting white papers where "isolation" of SARS-CoV-2 refers to: - the culturing of something, or - the performance of an amplification test (PCR) which the CDC has recalled July 2021 for given false positive for Covid 19 and variants or - the sequencing of something To clarify I am requesting via disclosure of all white papers showing isolation of the SARS-CoV-2 and variant virus in human beings in your possession or in the possession of Charles County Health department or State of Maryland health department, as the white papers would have been integral in the crafting of the statutes of any "Public Health Emergency here in Charles County MD. In the name of Jesus! We the people of Charles county revoke any consent you thought you had over us. I will not comply with any mandates.
