I am a life long member of this county. I am the third generation to grow up and live in this county in my family. I have worked in this county for 24 years. . I am now raising my family in this county. For all that said, the decisions made by this current board of commissioners has me seriously considering uprooting my family and my life to leave this county. I am respectfully requesting our county commissioners to vote no on this face covering requirement. There has been no data to accurately make a correlation between implementation of any mask mandates and stopping/slowing the spread of this SARS-COV-2 virus or any of its variants. This virus has followed many of the usual phases or cycles of most virus with cases increasing and decreasing depending on many seasonal variables and new variants . For this group of commissioners to decided to once again place a temporary unconstitutional and irrational mandate or worse attempt to trample on this counties populations' God given rights by drafting into law this mask requirement, you will only continue to hurt this county on many levels. Please rather than putting this noneffective requirement in place and causing more hurt, separation and desperation, simply provide hope and kindness to those who may still be scared and hurting. This can be done by reaching out to the community about good practical nutritional protocols to proactively and/or actively combat this virus. There is much to be gained in spreading hope rather than fear. I personally do not want anyone to find themselves

sick with this virus or any for that matter and I know you feel the same. However, while we are still living, we have to make life choices and risk assessments individual and for our families. You can't mandate fear out of people. You can help to comfort and protect by giving them good sound wisdom and best practices not by laws or mandates. Please provide hope not fear and vote no to this requirement.
