It is time to move past the masking mandate. It is time for those of us that are comfortable not wearing mask, to be allowed to not wear them. If a person still wants to wear a mask, that's fine. Many other counties and states have moved on from COVID and are living a normal life. Not us here in Charles County! The commissioners say they are listening to the scientist and doctors and we all know that is bullshit! They are attempting to make it look like they care about the community but in reality, they just want to make it look like they are trying to do something to "stop the spread" to cover their own ass. When I watch the commissioners meetings, it is obvious that Amanda Stewart is not even paying attention to the meeting as she rarely has her camera on and needs to be called on multiple times to respond! Is she busy being a Teacher in PG county while making health decisions for Charles County Residents? T. Coates has no clue what she is even voting on, she has a confused, disgusted look on her face and can't recite the motion what is being made without the assistance of the attorney. T. Coates also made the statement that she will not be mandated to come back into the office for meetings but has no problem mandating citizens to wear mask! What's the difference? Y'all continue to listen to Dr. Abney! Where did she get her DR. Degree? Mickey Mouse university? I hope all 5 commissioners ate Thanksgiving with their windows open and bought their own food like Abney suggested in a video she posted! She is digging for info when she says mask

also help against pollen and the flu. Mask don't work! If they did, why are we closing schools where they are required. The direction of this county is absolutely disgusting and embarrassing! I have lived here my entire life and I am ashamed of my home county because of the horrible leadership, terrible decision making ability, and lack of actual pride you 5 commissioners have in our county. I can't wait to vote you all out!
