I would urge the Commissioners to refrain from imposing yet another ineffective mask mandate. If masks worked, then the case numbers for COVID would not be spiking. If you are out in the county, you see that the vast majority are masked indoors. If masks worked, there would be fewer cases. It's good to see that MD finally got their COVID reporting back up today. However, how can we accept that tracking pandemic data was so critical, they didn't appear to have a back up. Reporting was down for nigh on 3 weeks. Appreciate your consideration of these comments.
