Dear Commissioner...I am completely against bringing back any type of masking mandate to Charles County, even in light of the most recent surge of cases. If individuals wish to wear a mask, they are free to do so, but I don't believe a mandate is warranted. When will you and others in a place of authority begin talking about therapeutics and learning to live with this virus which clearly is NOT going anywhere? These policies of virtual learning, isolation, and masking are creating even more problems and they clearly are not working – The definition of insanity is doing the same thing over and over again and expecting a difference result. The fear campaign that has been waged across the country is what is flooding hospitals and medical facilities as people without any symptoms are going in just to get a test??? What purpose does this all serve! If the masks and vaccines actually work then Why aren't they working??? I beg of you to stop the madness!!!
