This country affirms our rights to self-autonomy. Your efforts to mask people is of tyranny. Referring to failed medical agencies does not overrule the right of people to choose their own medical devices. It is utter hubris to try to stop flus, colds and these mild omicron cold-like conditions. It is beyond silly to think you as commissioners have power over illness and death. For all of your life, tens of thousands die of the flu. Trillions have been spent as you usher children to psychological trauma/suicide due to your hubris. ANY device which restricts air, which traps mouth-bacteria which is usually completely exhaled and which cause sinus problems is an affront to health and an affront to our rights and commonsense. We will not accept a mask mandate in Charles, whether it is passed legislatively or not. We fundamentally do not believe you have the authority to do it and are committed to fight it no matter what. The fearful and the tyrannical do not have a right to foist their psychological problems on the rest of society. It is worth noting that the psychological issues many of you mask-nazis demonstrate are feelings of low self-esteem to your own physical appearance, your dental issues, your dissatisfaction with nose/lip/cheek structure which you have low self-esteem about. That is a mental condition. That is a psychological drama in your minds which you espouse. That is not medical science. If you cannot control your extreme psychological frailty you leave official office. Such weakness does not serve Charles County. It is getting attention throughout the state that you are losing your legal battles. You will have officials set you straight today. End your outrageous tyranny, commissioners. Stop now!
