I am against requiring face coverings in Charles County. It has been 22 months since COVID-19 put the world on hold (this was when the first lock downs came to Maryland). We cannot continue on hold. We have months of information at our finger tips. Adult citizens can choose for themselves whether to wear a face covering--or not, and they have the right to extend that decision to their children. Everything we do comes with risk assessment--allow the citizens of this county to do just that. Small business have plenty of difficulties, worrying about paying another possible fine or losing business to a neighboring county should not be added to their list. Not to mention that studies now show that a cloth mask does not stop the spread of COVID-19. Also, cases have been on a decline since January 4, 2022 without such a mandate. This proposition is acting legislatively and that is not in your legal jurisdiction. There are plenty of citizens ready to bring this matter to court if needed. Do the right thing and stop perpetuating the fear that so many have already.
