I am against a mask mandate simply due to science and stats. Masks are clearly not working and data will show you that. If masks are mandated in this county then I will be forced to spend all of my money in the surrounding counties. It's no secret people are fleeing Charles county and this will add to the list of reasons why people are leaving Charles county. People should have the fundamental right to decide if they want to wear a mask or not. By mandating masks you are basically saying the general population in Charles county is not smart enough to make a health decision for themselves so the government must step in and make the decision for us.
