I am still opposed to the County Commissioners mandating masks and instituting fines for those who do not comply. The County Commissioners are attempting an overreach of power in an effort to control the citizens, with no real regard for the science behind masks and, more importantly, the rights of the individual. Masks have been proven to not work at spread or infection. In addition, there are other tertiary effects that can arise from wearing masks that put people at risk for other illnesses. Further, if an individual feels more comfortable wearing a mask, they have the freedom to do so; likewise, someone who does not should share that same freedom. To impose your personal preferences on everyone when the science does not back it up is unlawful and disgraceful.
