It is absolutely insane to impose fines on individuals and businesses for not wearing a mask. Most individuals wear them as a precautionary measure regardless of any mandate. The Charles County Commissioners need to remove their tunnel-vision goggles. Imposing fines will certainly have a negative impact on businesses and individuals. There is no reason our county representatives should dig their heels in on a point that will force businesses to close their doors to the public. How about focusing on topics where a positive result will occur?
