Masks don't work. Look at our neighboring counties ... St. Mary's and Calvert.... Mask free for the past few months and we have two deaths in the past 7 days and they have none. Our county has .198%, a 7 Day running average of cases. Calvert has .128% and Saint Marys has .207%. These counties both do not wear masks and have a statistically insignificant number of cases in comparison to Charles County. People who want to wear masks should wear them. Those of us who don't, should not have to wear them. If people have a sense of security and want to wear them, let them but don't micromanage the rest of us and take our rights away. County commissioners have ZERO authority here. You are not a public health agency. The governor has authority and has lifted mask requirements. You are hurting Charles County small businesses if you reinstate this mandate. Enough damage has been done.
