Please DO NOT enact a face covering mandate in Charles County! In times such as these we all want to feel like we are doing something to help - but mandating face coverings doesn't help. It's actually a burden for the public and veritably unhealthy for many of us. There are many studies available now that show masks are ineffective in slowing the spread of Covid. Here are links to one from Stanford <https://wsau.com/2021/04/20/stanford-study-results-facemasks-are-ineffective-in-blocking-transmission-of-covid-and-actually-can-cause-health-deterioration-and-premature-death/> and one from the University of Louisville <https://townhall.com/tipsheet/spencerbrown/2021/05/26/new-study-refutes-fauci-efficacy-of-mask-mandates-n2589990> There are more than a hundred of these studies, please make an informed decision and don't fall prey to current narrative. Thank you for serving our county.
