I vehemently oppose a mask mandate for Charles County for myriad reasons. First, cases in the county and state are declining rapidly. At this stage, the vast majority of people in the county have already been exposed to the Omicron variant, building a natural and long lasting immunity. South African studies have shown that Omicron builds immunity to multiple variants of Covid. Covid is an airborne pathogen. Unless the entire community walks around all day, every day in a properly fitted N95 (which would cause a whole host of other respiratory problems), makes masking totally ineffective. There have been multiple studies in re the flu which showed masking ineffective at mitigating the spread of airborne pathogens. It is ludicrous to think somehow Covid is different. Masking has caused mental and emotional trauma to so many already. Stop the insanity and allow your constituents to get back to normal, healthy lives.
