I am against a mask mandate for charles county. There is research showing that cloth masks are innafective. As a first responder in the county we are told that when responding to a COVID call we are to wear our properly fitted N95 mask as well as full disposable suits. If cloth masks were effective this would not be the case. Secondly, there is a matter of choice involved. If people feel better wearing their cloth masks then let them wear them. To force everyone to wear a covering proven as innafective is ridiculous.
