Over a billion masks were dumped into our oceans in 2020; by now that number has doubled. Plastic bags take 20 years to breakdown but masks take 450. Masks are killing our oceans, killing the Bay and don't work. This virus is endemic. If the commissioners actually care about the environment they would issue a ban on mask usage and instead promote a healthy lifestyle. Masks don't work and I'm not going to continue to contribute to the death of our oceans. Think about that the next time you eat seafood; you're also eating dirty masks. Stop killing our planet.
