I oppose the mask mandate being signed into LAW and fully support an individual having the ability to choose for themselves whether or not to wear masks. Here in Charles County everyone wears masks. I don't understand why we need a LAW and a system of FINES for non-compliance... At the beginning of the Omicron surge when the mandate was temporarily halted what did Charles County residents do? Continued to wear masks because many of our residents NEVER STOPPED WEARING them. Let's stop pretending that Charles County residents don't "do their part" and wear masks. There is absolutely no need for a law to pass to control the residents of Charles County considering they all are wearing masks. Fines? Why again do we need to fine people for not wearing masks if 98-99% of Charles County residents are VOLUNTARILY wearing masks even while not being required to do so currently?!? It's scary you believe this is ok and a resolution to "fighting covid." How about we go into the phase where we continue to encourage people to get vaccinated, eat healthy, exercise and stay home if they are sick considering they've all nailed the whole "wear masks out in town" part of your covid plan... You are wasting everyone's time and valuable resources putting masks into law and fining our already very compliant Charles County residents. Our cops have real issues they need to tend to within our community. What an insane ask of you all.
