Making the mask mandate a law would be unenforceable. Who is going to supply the residents and visitors of our county with the only masks the CDC says are effective, N95 and KN95 masks? We will need several each if they are to be worn out in public because they will wear out, get dirty, misshapen, and become ineffective. How will everyone be issued their masks? N95 masks are not made to fit children. What will they wear? Those masks are also not meant for people with facial hair. Will men be required to shave in order to comply with the mandate? Who will fit everyone for their masks so that the masks will protect as they should? An ill fitting mask will allow the virus to pass through and expose others. As it is now, most people I've seen wear their masks incorrectly and under their nose. Wearing it improperly is just as bad as not wearing one at all. Who is going to monitor masks wearing and call in violations? Are there going to be extra law enforcement hired to go around the county and give out citations? If fined or given a ticket for incorrect mask usage or noncompliance, how will the courts be able to handle all these additional cases?
