Do not believe they work. If I choose not to wear one I subject myself to catch it. If the masks work the ones that choose to wear them should not be concerned with people that don't. If you are vaccinated and they in fact work why are we required to wear a mask. If I've already had the virus I have built up my own immunity. Why do I have to be vaxxed or wear a mask. Should all be my choice. We are not a danger to all that have complied to all the senseless mandates. The virus will never have a cure. We are no closer to ending this pandemic than we were 2 yrs. ago. Vaccines do not work, masks don't work and therapeutic's that have proven to work are not allowed to be prescribed. Let's end this fear mongering and teach people how to live with this as we've done with all the previous viruses. This is all political and needs to stop. People's lives are being destroyed, our children's education is suffering and people are losing their businesses that have worked a lifetime to succeed. Why are their certain states that continue to blow this way out of proportion and create panic and fear and others that are living normal lives and do not live in fear any longer. Why should we continue to trust in Anthony Fauci and the CDC. Why can't we bring in other professional virologists and make this a group effort and maybe earn the trust of the American people. So many conflicting issues that no one knows what to believe. The President of the United States has turned this in to a complete mockery. It should be left up to the governor's of each individual state. Leave this incompetent administration completely out of it. Let Dr's treat their patients like they've done so in the past. Take

the government control completely out of it. What is the answer. We are getting absolutely no where. What is the ultimate goal we need to acquire before its time to move on and live our lives again?
