I am registering my opposition to mask mandates. I keep hearing that there is a crisis and everyone will die if a mask is not worn and people dont get a test and 4 vaccines. Dr. Abney and her staff purposely close testing/vax sites early and dont open at all when it suits them (Jan 16 and 17 plus others). These type of actions negate the importance of their words. Masks have not been required in Charles County since Nov and the covid numbers are still down. The CDC has not been 100 % accurate or truthful with their reporting methodologies making their recommendations even more suspect. The CDC is now saying that cloth masks are not effective against the virus. Mandatory mask usage is not changing the results. Discarded masks are polluting the county, you see them everywhere in parking lots and roadside. How many of these will find their way to the Potomac and the Bay? Finding a better solution to replace the fear and panic that has been instilled through the people will make a positive impact.
