We have officially seen the data for mask wearing and we can weigh our own risk. The cdc shares their thoughts on cloth mask. No one wants to be governed daily or controlled, that is not what our institute was setup to do. If our citizens want to wear a mask, by all means they should. But our historical data shows the opposite pertaining to the risk of contracting a virius, we have systems in place to combat this. If we could allow the people to live freely with less government overhaul, we could focus on more important issues in changing the direction of our future. Thank you for your time.
