At one of the most financially difficult times in history, when families and small businesses are struggling to just put gas in the car and food on the table, it is outrageous that a property tax increase is even being discussed. What benefits do i even get from my current tax dollars? My neighborhood roads are lousy, I pay for trash service, county roads are not adequately maintained, schools are overcrowded, our only hospital cannot keep up with the growing population but yet, there is residential and commercial building at a furious pace. We moved 'to the country' 25 years ago to get away from all of that. Charles County is getting worse than PG...crime is thru the roof. You should be looking for ways to cut taxes and lighten the burden of working families but, instead, are running more families out of Charles County by making it impossible to afford to live here. I'm sure it's nice to have a steady paycheck with benefits on the daily but try being self employed in this day and age. Elections have consequences and we will not forget!
