I am thankful of the proposed amendment that seeks to amend the tier map designation and land use plan for 900 acres of land in the vicinity of the unincorporated community of Newburg. Changing the Tier from 2 to 4 will only have a positive effect on the Newburg community. This will only thrive the area for sustainable agricultural business. This property borders the Potomac River which cannot stand any public sewerage, any wastewater that enter in the Potomac River will have an impact on the fish, oyster, crabs and humans. As we all know intensive development produces issues like crime, traffic, impervious surfaces, and the need for more schools and police protection. Please continue protecting our county from sprawl development. Francis Warring
