As a lifelong resident of Charles County, I have watched the unnecessary building of residential/commercial areas (most vacant) and the horrible effects it has had on our roads, crime rate, businesses etc. How can we possibly survive like this? How can we allow more children in our schools without teachers or even bus drivers? If this past year or even the past 24 hours has taught me is that we must protect our young at all costs and this means keeping our agricultural land to prevent over developing. We must focus on overcrowding in our schools and mental health assistance that our children direly need. Charles County is rich in history and that is thanks to our farmers and farmland. I hope everyone opens their eyes wider than their pockets and sees how downhill this County has gone...we can't even go to the local Wal-Mart without being robbed. We can't go to Target without being asked for money by the homeless. Our children aren't safe within their own schools. ENOUGH!!! Everything we do now will affect our children, we must do better.
