Respectfully, this is again another push to limit and restrict the law abiding citizen. The fact is that gun violence is rising in our County, State and Country. Another fact, in which you may not be aware of is, there is an increase of law abiding citizens that are using their right to bear arms to protect citizens. You wouldn't know this because it doesn't fit the agenda of this country. Germantown Memphis reports that a good Samaritan stopped a kidnapping by confronting 3 men that were trying to abduct a woman. They left out the fact that the good Samaritan used a fire arm to ward them off. A UK news station stated that fact in the first 3 words of their report. Id like to mention that the vast majority of murders are committed with a hand gun but the government's focus is a firearm on an AR platform and limiting magazines. You are truly ignorant if you can't see what is happening. The overarching idea is to weaken the 2nd amendment militia. I'm not talking about the mainstream media's politicized and bastardized definition but the militia in the 2nd amendment. Once they limit one type of firearm they won't stop. You see this with the reduction in magazine capacity. Stop being ignorant and use common sense to make the right decision and stop limiting law abiding citizens with your senseless "power grabs."
