I wish to voice my objection to Bill 2022-14. I feel it is a typical feel good legislation that will accomplish nothing and will further separate our legislators from the general public by excluding themselves, as if they are above the "common" people. License holders have passed numerous background checks and qualified with their firearms; have all of the commissioners? The law abiding citizens are not the threat; criminals are and they will not adhere to the bill's passage anymore than they adhere to laws already passed. Remember, the 2nd amendment was not written to protect our right to firearm ownership, it was written to protect us from an overbearing and tyrannical government.
