Hello, this is my first time writing in and I pray that you are able to read this with an open mind and loving heart. I've been living in Charles County (Bryans road area) for over 15 years and I have seen some many places come and go. My biggest concern for my community is the fact that we are a small town and are in a food desert. We only have one grocery store and a small amount of food options to choose from. I know change won't happen over night but I pray it does soon. Food lion is the only grocery store we have and that's for Bryan's road and Indian residents. That's completely unacceptable and we need to have at least 1-2 more grocery stores built! My next biggest concern is that there are small businesses but most of them don't stick around long enough. We are having homes built left and right but no food places or a grocery to maintain the growing population. So, I ask how can we as a community create a better place for people to want to live and enjoy their time here in Bryans road. I pray that this information is helpful and can make a difference! Thank you so much
