File Details:

Walking List: The walking list is a PDF (uneditable) file generated by precinct and sorted by street address. Under each street address is listed all voters who live at that address and their political party. It is designed for walking up and down the streets, with even addresses in the left column and odd on the right.

Mail-In Applicants List: Text file containing a list of voters with mail-in ballot **requests** for the given election. It includes Voter ID, name, residential address, mailing address, mail-in ballot address, precinct, district information, state and county registration dates, party, mail-in type, mail-in request status, and county. Actual mail-in voters are on the voter history lists.

Permanent Mail-In Applicant List: Text file containing a list of voters with mail-in ballot requests for any future election. It includes Voter ID, name, residential address, mailing address, mail-in ballot address, precinct, district information, state and county registration dates, party, mail-in type, mail-in request status, and county.
