My children have been active swimmers for the past 5 years! Currently they are swimming with Souther Maryland Aquatics. Because of the limited pool space it has made a hardship on the swimmers in this area due to the fact when there are various activities at the schools swim practice has to be canceled. In addition my mother is an Active adult who actively participated in the CSM water aerobics classes with a large group of seniors, now they are traveling outside of the area to another county in order to participate in water aerobics. This makes not sense both monetarily and logistical, money is being taking from Charles county and the seniors are having to travel long distances from their home in order to receive the services they need to be active. I know that in life there will always be changes but this one impacted so many families to the point that kids are not able to receive life skills that may

one day stay there, live with out the county being able to provide swim lessons to the children. The schools have been provided as an alternative, but win winter swim season is in. It is almost impossible to find space in the pool for water aerobics, or other aqua activity. I hope that my comments will move forward in a positive manner to reopen the CSM for our county. Thank you, BreAnne Estell
