Any commissioner found to have violated, the laws of this county, state, or country, or fails ethical boundary's such as money, harboring a racist demeanor either while actively participating in country activities or personal life need to face the consequences of their actions. A removal process needs to be implemented. However, that process, should ultimately result in a lifetime suspension from county government, either elected, employed or through contracts. I do agree, any sitting commissioner should be able to challenge this through the court system, however, if found guilty, or found responsible for the charges, any additional appeals are to be at the accused sole financial responsibility. While we are talking about this, the citizens still need the second Sargent report released. I understand it brings to light another commissioner as a racist. To continue to hold this report from the tax payers

only affirms this is true. The tax payers funded these reports, the tax payer deserves to read these reports, you work for us, not the other way around. Also regarding commissioners wrong doing, Commissioner Collins, what was the total amount charged on your government credit card? Has this been paid back in full? Has a complete audit of your card for each year your been a commissioner been completed, if not why? This was theft, not an accident, you just got caught.
