Why did the Commissioners create a board to create a plan to change the county government without first asking their constituents if they wanted their tax dollars wasted on creating a board? The board that's been created for a plan to change the county government was never put to Charles County residents to ask them if they wanted a board funded with members and lawyers for that kind of research. That kind of action should be a violation of county government. It's overreach to spend our tax dollars on creating an entity for which we never gave our approval. I will ensure you are all held accountable for spending our tax dollars on your personal agendas without asking us if we would allow it. Shame on all of you for violating our trust! There are better things on which to spend our tax dollars than to waste them on creating a board that probably needs lawyers to create a change in our government. I wonder if we could sue all of you for your selfish inept actions. You'll waste money on stuff we already voted against in a past election, but you refuse to fund the Charles County Sheriff's Department to the level it's requested. Are you going to dissolve the board or do we need to sue all of you? I'm sure there's a lawyer in the county or the state that will take on a class action lawsuit against all of you who need to be fired and replaced with

officials who actually listen to us.
