Many citizens are experiencing changes in their health currently due to the excessive local aircraft flying over our homes and the changing of the flight path arrival at DCA with commercial planes. Bryans Road needs a Public Scoping and Environment Impact Assessment to get the real details about what's happening in our area. We're tired of being left in the dark and this is environmental injustice to continue to oppress us and our health for profit at the hands of others. We're demanding accountability from the Commissioners to honor the needs of the citizens that abide here over those seeking to profit here.
